MESSAGE FROM THE CAHIRMAN

Dear Valued Shareholders

AssalamuAlaikum

It is indeed a great pleasure and honor for me to welcome you on this 25th Annual General Meeting of Alif Manufacturing Company Ltd. (Previous CMC-Kamal Textile Mills Ltd.) It is also a great privilege for me to place before you the annual report along with audited financial statements of the company, auditors report and Directors report there on for the period from July 01, 2019 to June 30, 2020

As you are aware of, Textiles Sector, especially its main component sub-sector-RMG (Ready Made Garments), is the prime mover of our economy and has the highest contribution to our GDP, Foreign Exchange Reserves, employment, economic/social development including health, education, poverty-alleviation, social security, food security and ethnical integration etc. Despite the sudden attack by CORONA during the Fourth Quarter of the reporting period, the total export earning had succeeded to grow despite turmoil in the main importing Countries. As the leading economics are at trade war, new opportunities are showing things of light for new niche in the international market that offer us wide scope of a bright smile on the face of our bloody-war-won Nation.

Despite the continuous threat of CORONA on the back and front lines of Suppliers and Buyers, and likely declining level of profit in the few years ahead, I believe, in the long-term, our Shareholders, the stakeholders and our Nation shall withstand the storms and win and stay stronger.

I sincerely believe that good governance is very vital for success and improvement for the company. I also glad to report that the company has an audit committee, which regularly review the financial transaction. The management is fully aware of risk factors of the economy and the industry as well and take measures to address risk. The company has also internal financial control system that gives reasonable measures to the Board of Directors for their guidance.

Finally, I would like to take the opportunity on behalf of Board of Directors and express my deepest appreciation to all our valued shareholder, customers, and clients, well-wishers for their heartiest support and interest for the betterment of the company. I sincerely hope that the same support would continue in the future to come.

With best Wishes

Md. Azimul Islam
Chairman

MESSAGE FROM THE MANAGING DIRECTOR

Dear Shareholders, Colleagues, Ladies and Gentleman!!!

I feel grateful to all of you for making time to attend this 25th Annual General Meeting of the Company. While I welcome you on my behalf, I assume you all have received copies of Annual Report for the period from July 01, 2019 to June 30, 2020 of the company containing director's report along with financial statements and notes to the accounts for your review and evaluation.

A study of the Directors' Report would show that despite the disorders during the Fourth Quarter of the period under report due to CORONA, the company had succeeded to increase installation/operational capacity by additional investment, and the result of those additional investment is yet to come. Management efforts, thereby, led to a reduction in unit cost including percentage of Raw material costs of total unit costs. Due to pandemic situation and ongoing lockdown, the company had little operation on the last quarter of 2019-20. Unit export prices had fallen at a higher rate diminishing the gross profit, operating income, Net Profit, and lastly the EPS.

In the end, we are thankful and grateful to you, shareholders, for keeping trust and confidence on us. It is required to mention here that your valued suggestions, advices and continuous support definitely worked crucially for the continuous development and growth of the business. We want to express our recognition providing thanks to the commitment, dedication and hard work on the employees of Alif Manufacturing Company Ltd (Previous CMC-Kamal Textile Mills Ltd.) who are core strength of our success.

I wish all the best for the better and more productive future for our shareholders, employees and the country.

Sincerely

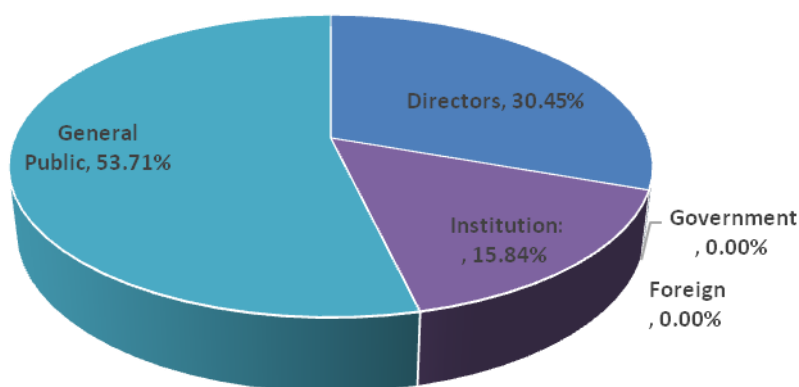

Md. Azizul Islam
Managing Director

DIRECTORS' REPORT

Dear Valued Shareholders:

AssalamuAlaikum

On behalf of the board of directors, I am pleased to welcome you to the 25th Annual General meeting of Alif Manufacturing Company Ltd (previous CMC-Kamal Textile Mills Ltd) and it is my privilege to present before you the Annual Report and Financial Statements of the company for the 12 months from July 01, 2019 to June 30, 2020.

OPERATIONAL OVERVIEW

Textiles Sector produce yarn and fabrics for production of varieties of Textile goods that are used by people of World at large. However, most of them suffered huge financial losses due to the sudden appearance of CORONA pandemic with its devastating effects on the Socio-economic lives of all the nationalities of the World for almost a year.

Due to CORONA pandemic, the activities of the textiles sector of the World including Bangladesh had caused a decline in GDP in major economics. USD 3.20 billion RMG order was cancelled/suspended from Bangladesh with resultant loss of export earnings and financial losses by export-oriented spinning and weaving mills amounting to USD 1.40 billion. It may be mentioned that during 2016- 2017, total export earnings by using local yarns and fabrics was USD 18,121 million which had increased to USD 21,950 million in 2018-2019 and retention was USD 12,683 million which had risen to USD 15,365 million. Due to CORONA pandemic about 55 lac of the country's industrial employment, of which 80% are females and about 150 lakh of peoples in support industries who depend on this trade have been suffering. In the face of the grave situation, it is heartening to note, the Government of Bangladesh took significant steps and initiatives in time through various stimulus package to protect the textiles sector from the adverse situation caused by the COVID-19 which is appreciable indeed. We are looking forward for the better situation which will alleviate the pains from pandemic.

We have no doubt that the clarity and consistency of our strategy, our discipline to remain focused, and a firm commitment to our culture and values have been crucial to your Company's performance growth. More than anything else, your Company has developed agility to change and transform; to respond to challenges and tackle the twin objective of improving value creation from current assets and paving the path to grow and become more efficient.

ADDITIONAL STATEMENTS BY THE BOARD OF DIRECTORS AS NOTIFICATION DATED JUNE 3, 2018 FROM THE BANGLADESH SECURITIES AND EXCHANGE COMMISSION:

i. Industry outlook and possible future developments in the industry:

As one is acutely aware, the country's readymade garments (RMG) sector has endured passing challenges for the past two decades. Fast-paced changes, in terms of buyer's requirements, required factory modifications, workers safety issues environmental compliance requirements and growing market and design trends, have all been major stressors of the sector. Some of the challenges are macro-economic challenges are specific to individual factories, while many of the industry as a whole, which is in large part due to the high cost of doing business in the country. While the above were on-going struggles, the Covid-19 pandemic hit and overhauled the entire world, including Bangladesh and its economy. For the RMG sector, the adverse effects were tremendous. From the beginning of March 2020, many orders were spinning sub-sector remains crucial to RMG value chain helping to stabilize supply chain, while controlling costs.

Unlike any other time, the world apparel trade is going through an extremely challenging and uncertain time not seen before in the recent past due to the pandemic COVID 19. The world economic irrespective of bigger and smaller economy, all suffered largely at the second half of the year. This pandemic type situation was in addition to the big economic superpower USA and China trade war that was affecting the global scenario earlier.

It is extremely difficult to predict any possible future outcome during a pandemic situation. The whole world is in literal stand still with lockdown resulting out from the COVID 19, as such the economic activities are totally disrupted. The company went through a very challenging time due to the pandemic COVID 19. The operation of the mill was halted for an extended period of time. Business activity was paralyzed due to the lockdown imposed throughout the country.

ii. Segment-wise or product-wise performance:

The company produce only one type of product that is cotton yarn. The company produces cotton yarn ranges from 10 to 62 count.

iii. Risk and Concerns:

All sectors of textile industry face many similar challenges. The main problems, regardless of the sector within the industry are lack of power, labor unrest causing disruption of production, high price of electricity. The price of raw materials in both local and international market are not stable. Keep in this mind, the company's management perceive operational risk, market risk, and new investment risk, foreign exchange fluctuation risk within the national and international perspective and the risk of any abrupt changes of the policies made by the regulatory authorities that may adversely affect the business of the company. The management is skilled and experienced enough to deal with such risk that could have affected the business

1. Industry Risk

Textile is the largest industrial sub-sector in Bangladesh. It contributes highest in the country's total export earnings, gives employment to over four million people meets the second basic need for clothing of the country and contributes around 50% of the industrial value addition. But after phasing out of the, Multi Fiber Agreement (MFA) the global textile trade is now free from quota restriction.

Management Perception

The textile industry has successfully coped with the post Multi Fiber Agreement (MFA) competitive situation. The force, which is helping the sector for its strong existence is emergence of backward linkage industry. Backward linkage industries are supporting for minimizing lead- time and cost of production. The company is a first state of backward linkage industry of yarn production that facilitates for better existence.

2. Interest Rate Risks

Interest / Financial charges are paid against any kind of borrowed fund. Volatility in money and increased demand for loan presses on interest rate structure to be fixed in high. Raising of interest rate increases the cost of fund for a company, which have borrowed fund, and consequently profit is squeezed.

Management Perception

The management of the Company is always aware of interest rate, which is concerned to the cost of fund the company. The Management prefers in procuring of the long- term fund with minimum fixed interest rate and the short-term fund with reasonable competitive rate. On the other hand, management of the company is emphasizing on equity-based financing.

3. Exchange Rate Risk

The Company is export oriented. The products of the company are sold against foreign currency and payments for raw material are also made in foreign currency. If exchange rate is increased against local currency opportunity is created for getting more revenue against sale in local currency. On the hand if exchange rate goes down margin is squeezed in local currency.

Management Perception

The exchange rate of the country is traditionally witnessed of upward trends, which markets ample opportunity of export. On the other hand, management perceives revaluation of local currency i.e. down trend of exchange rate will have little impact on profitability of the company.

4. Market and Technology related Risk

Among the functional areas in a yarn company, marketing exerts the sheet part of the importance. Proper implementation of the marketing tools as well as identifying new client will ensure the success of the project. The continuous changes on performance in the garment and textile market will force company to catch the trend. For which the company has to produce yarn for international demand.

Management Perception

The company set its focus only in countries export Market through inland back-to-back letter of credits. The management is trying to sell through direct contact with the customers (RMG &Knitting industries) in the selected regions understanding their needs. The company also has established relationship with potential buyers across the country and expects to find market for its capacity despite competition prevailing in the sector. Further the commercial bank and financial institutors provide a thrust in the textile sector as they provide credit facilities to RMG & knitting industries to acquire the yarn for their final products.

5. Changes in Economic & Political Condition

Changing economic conditions may affect the demand for the product offered by the company. Downturn of economic activity or uncertainty may result in a downturn in demand for loan funds for industry.

Management Perception

Social unrest due to political reasons may cause downturn the economic activity which will have impact on demands of textile. But as elected Government is in place, we can expect that political rivalry within democratic environment will not affect the manufacture sector

6. Energy costs may rise

Due to the adverse power situation in the country, production may be hampered and wastage might rise.

Management Perception

The Company itself sufficient in generating power by its own generators. However, in case of gas shortfall and subsequent rationing if any, then the productivity will be reduced. In that scenario, the overall sector will be affected.

7. Operational risks

Shortage of power supply, labor unrest unavailability or price increase of raw material, natural calamities like flood, cyclone, earth quack etc. May disrupt the production of the Company and can adversely impact the profitability of the Company.

Management Perception

The compensation as well the benefit package will restrain the employees to leave their assignment and got for any employee movement for higher benefit packages. The project of the company is situated at a high land where less record of flood. The factory building has strong RCC foundation, RCC floor, pre- fabricated

steel structure to withstand wind, storm rain etc. along with good drainage facility. The risks from these factors are also covered through insurance. The Company is also facilitated to keep a rational reserve for any future price escalation of the raw material.

iv. Discussion on Cost of Goods Sold, Gross Profit Margin and Net Profit Margin:

Cost of goods sold decreased by 16.72% in June 30, 2020 compared to that of the previous period. The decrease of Cost of Goods Sold in comparable period was due to decrease in export sales.

Particulars	1-Jul-19	1-Jul-18	Increase/Decrease	% Increase/Decrease
	to	to		
	30-Jun-20	30-Jun-19		
Revenue	780,415,087	960,158,235	-179,743,148	-18.72%
Cost of Goods Sold	586,346,498	704,156,420	-117,809,922	-16.73%
Gross Profit	194,068,589	256,001,815	-61,933,226	-24.19%

From the last quarter of 2020, the country witnessed Corona Pandemic situation, which results countrywide locked down, As a result, the company's sales decreased, which resulted decrease to Cost of Goods Sold (COGS) and Gross Profit as well.

Margins decreased in 2019-20 compared to that of 2018-19 due to Corona pandemic, adverse market condition and ongoing BMRE.

Particulars	1-Jul-19	1-Jul-18
	to	to
	30-Jun-20	30-Jun-19
Gross Profit Margin	24.87%	26.66%
Operating Profit Margin	20.83%	23.67%
Net Profit Margin	15.98%	18.64%

Cotton prices in the international markets were high. The prices of yarn suddenly fell as India is offering lower prices due to devaluation of the Rupee against USD. Besides, huge amounts of yarn are being imported illegally from India through land ports, which are increasing supply at lower prices as taxes are not paid. As a result, the margins are squeezed.

(e) Briefly explain the financial and economic scenario of the country and the globe:

The Economic growth of Bangladesh slowed to an over 8-year low in Financial Year 2019-2020, reflecting disruptions related to the pandemic. The unprecedented shutdown of the global economy led industrial production and exports, especially of ready-made garments, to nosedive in the final quarter of FY 2020. In turn, remittances, a key source for consumer spending, dropped in April and May, although they rebounded in June and July following the easing of restrictions in the Gulf region. Meanwhile, the reopening of the economy in May is expected to have supported domestic activities, while the upcoming Christmas season could reinvigorate demand for Bangladeshi goods. The fiscal stimulus plan unveiled in April and a looser monetary policy should also support the economy. In that regard, the government is considering unveiling fresh stimulus, particularly to support the vital ready-made garments sector. ensure as far as possible, that it will always have sufficient liquidity to meet its liabilities when due under booth normal and stressed conditions without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalent to meet expected operational expenses including financial

obligations through preparation of the cash flow forecast with due consideration of time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date. After the recent capital raising, even in extreme stressed conditions it is unlikely that the Company would require further financing at least within next couple of years

(f) Risk and concerns including internal and external factors and its mitigation plan of the company is stated below:

Backward linkage factories – spinning, weaving, and knitting – in Bangladesh are running their businesses at a loss because of yarn dumping from India, and fabrics from China and Pakistan. Although apparel industries seem to benefit more from dumping, it makes them more dependent and vulnerable as a supplier of low-priced garments for export. Due to the U.S. – China ‘trade war,’ yarn and fabric from China are exported to Bangladesh at a lower price. Textile industries are facing hard challenges and incurring business losses, as they can’t compete with imported yarn and fabric at very low prices. China is providing direct cash returns to exporters of about 15 to 20% on their export of fabric to Bangladesh. In March 2019, the price of cotton yarn reduced due to lower cotton prices in the international market, along with ample supply of yarn and fabric from China, India, and Pakistan. The local textile millers are facing uneven competition due to abundant imports of cheap yarn and fabrics. Some of them are about to leave the market and are facing a challenge dealing with a huge stockpile of unsold fabric. The phenomena is attributed to low-priced yarn and fabric imports increased through bonded warehouse import “leakage,” improper utilization declaration (UD) certification facilities of readymade garment (RMG) manufacturers, false declaration of product specification, and smuggling through the border with India. Local RMG manufacturers are importing yarn and fabric from China, India, and Pakistan using a bonded warehouse (zero tariffs on import of raw materials for export value-added product) privilege. “The imported yarn and fabric with zero tariffs are then illegally sold to the local market which forces down prices in the domestic market and makes local weaving mills and spinners more competitive. Bangladesh has import duties of 32.4 percent for man-made fiber, 91.37 percent for fabric, 38.47 percent for yarn, and 32.4 percent for textile chemical dyes. Export-oriented RMG factories can import yarn and fabric under a duty draw back incentive, which reimburses all customs duties paid on imported yarn, and fabric (but not taxes such as the VAT and Advanced Income tax). Imports of all textile raw materials, including fabrics, have no quotas. As a result of yarn oversupply in the domestic market, prices fell nearly 15-20 percent, while some textile millers and spinners suffered as a result. Some millers planned to cut overseas purchases of cotton for yarn and fabric production as they were struggling in the market due to the flood of imported yarn and fabric from China and India. Textile millers have urged the government to take necessary action in order to protect the textile industry. Of 2.1 million metric tons of Bangladesh’s yearly yarn demand, 70 percent is met by local millers, while the rest is imported mainly from India, China, Vietnam and Pakistan. More foreign buyers of value-added apparel are purchasing from Bangladesh due to cheap labor cost, competitive prices, and an appreciated US dollar versus the Bangladesh Taka. Some high-end millers have increased production capacity to satisfy higher domestic and international demand. Bangladesh currently has 430 spinning mills, 802 weaving mills, 244 dyeing and finishing mills, 32 denim fabric mills, 22 home textile mills, and a total of 6,502 registered and 527 un-registered garment factories. Sixty-five percent of these factories are located in Dhaka district. Approximately 4,296 Bangladesh Garment Manufacturers and Exporters Association (BGMEA) members employ four million workers, of which 80 percent are women. In first eight months of the current fiscal, ready-made garment (RMG) exports fetched Bangladesh approximately US\$23 billion, up nearly 15 percent from last year. In previous financial year, the country earned US\$ 31.6 billion from RMG exports, an increase of 8.77 percent compared to 2016-17 FY, and contributed 83 percent of total export earnings. Ministry of Textile and Jute has projected that the RMG sector earnings would grow to US\$35.62 billion and US\$38.73 billion in 2019-20 FY and 2020-21 FY respectively. The export growth was partially contributed to by improved workers’ wages, compliance maintenance investment, workers’ skill development, diversified value addition, increased domestic and foreign direct investment, and more international brands involved in the trade.

Since the main problem is misuse of duty-free trade facilities and illegal imports, mill owners want strong monitoring to stop misuse of the bonded warehouse facility. They urged the government to ban yarn import through land ports

Independent Auditor's Report

To the Shareholders of Alif Manufacturing Company Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of Alif Manufacturing Company Limited., which comprise the statement of financial position as at June 30, 2020, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Qualified Opinion

a) The Company has reported Tk. 227,574,952 as Inventories in note # 7.00 to the financial statements. The Company provided us detail inventory schedule and register but the Company didn't made any counting by the third party during our audit, neither we could physically count inventory on test basis due to COVID-19 and as such we could not confirm the Inventory amount physically.

b) The Company has reported PPE in the financial position on cash basis rather than accrual basis, as such the PPE understated in the statement of financial position. Consequently, the depreciation was understated and profit in the financial performance overstated. In absence of relevant documents the quantum of financial impact could not be ascertained by us.

c) The Company has reported Tk. 7,054,307 as WPPF in note # 20.00 to the financial statements. But as per labor act 2006 section 234, the Company didn't establish Participation Fund and Welfare Fund which lead the non-compliance of Labor Act.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other Information

Management is responsible for the other information. The other information comprises the information including Director's report included in the annual report but does not include in the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. As described in the Basis for Qualified Opinion section above, we were unable to obtain sufficient appropriate evidence or confirm with compliance about inventory, PPE addition, WPPF. Accordingly we are unable to conclude whether or not other information is materially misstated with respect to this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section we have determined the matters described below to be the key audit matters to be communicated in our report.

Risk	Our responses to the risk
<p>Revenue recognition</p> <p>Revenue recognition has significant and wide influence on financial statements.</p> <p>The Company has reported revenue of BDT 780.42 million in the financial statements for the year ended 30 June 2020. (30th June, 2019: BDT 960.16 million).</p> <p>Revenue is recognized when the amounts and the related costs are reliably measured, and the performance obligation is complete through passing of control to the customers. Revenue from the sale of goods is recognized at the time when the goods are dispatched for delivery to the customers.</p>	<p>We read the assessed compliance of Company's revenue recognition policy in terms of IFRS 15: Revenue from Contracts with Customers'. Our audit procedures included the following:</p> <ul style="list-style-type: none">▪ We have evaluated and validated the key controls related to the Company's sales process from end to end, from contracts approval and sign-off, recording of sales through to bank receipt, cash receipts and customers' outstanding balances.▪ We assessed the design and implementation of relevant controls. We tested a sample of individual sales transactions and traced to dispatch notes and subsequent bank receipt, cash receipt and other supporting documents;▪ Assessed the invoicing and measurement systems up to entries in the general ledger;

Risk	Our responses to the risk
We identified revenue recognition as a key audit matter because revenue is one of the key performance indicators of the Company and therefore there is an inherent risk of manipulation of the timing of recognition of revenue by management to meet specific targets or expectations.	<ul style="list-style-type: none"> Examined customer invoices and receipts of payment on test basis; Assessed the design of the processes set up to account for the transactions in accordance with the Company policy; Assessed whether any adjustments are required.
Refer to note 22.00 to the financial statements	

<p>Valuation of trade receivables</p> <p>The Company has reported Trade Receivables value of BDT 593.1 million in the financial statements for the year ended 30 June 2020. (30th June, 2019: BDT 450.56 million).</p> <p>Due to the nature of the business trade receivables is material to the Company.</p> <p>The possible insolvency of the clients may increase credit losses to the Company and the effect on the profit of the Company may be material.</p> <p>Valuation of trade receivables is a key audit matter in the audit due to the size of the trade receivable balance.</p>	<p>Audit procedures related to the key audit matter are as follows:</p> <ul style="list-style-type: none"> We obtained trade receivables balance confirmations. We analyzed the aging of trade receivables. We have obtained trade receivable confirmations from the third parties. In addition, sample of the trade receivables have been reconciled to subsequent payments. We have assessed the appropriateness of presentation in the financial statement.
Refer to note 08 to the financial statements	

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with ISAs, we exercise professional judgments and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Company's financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
